

Full Stack Developer

E-mail: connect@portonhealth.com
Phone: +1 604 288 1180
Office: 422 - 268 Keefer St, Vancouver, BC V6A 1X5

Position Summary

The full stack developer will work with the founder to launch PORTON's medical opinion service. Success in building and shipping an app or web app is preferred. The ideal candidate will be comfortably familiar with some of the modern languages used in today's startup industry programming. Preference goes to those with a solid understanding of UI / UX principles. This position will be of interest to someone with a passion for healthcare, technology and making a positive difference in lives.

Primary Duties

To be successful in this position, you will be an integral part in a health technology startup that thrives, in research, development and enjoy using Node.js, Coffee Script/JavaScript, MongoDB, Express.js, and GIT. You will lead in the evolution of important healthcare projects with social benefits. In addition, you will be responsible for providing estimates for development efforts, translate requirements into conceptual and detailed designs, write code and develop prototypes and systems for web applications, build out the platform, systems, and networking infrastructure, assist with QA and troubleshooting software issues as well as implementing bug fixes using best practices and latest frameworks. You will help Porton in building a complex web application that is scalable and capable of handling millions of users.

Requirements:

- We are looking for either graduates of technology, health sciences, sciences, business, or similar.
- Strong software engineering experience
- Proficiency in some combination of JavaScript, jQuery, MongoDB, HTML5 & CSS3, Twitter Bootstrap, REST, Node.js, React.js and some object-oriented programming
- Strong Knowledge of UX and UI concepts including designing responsive apps
- Strong HTML and CSS Prototyping
- Knowledge of web service integration (SOAP, REST, JSON, XML) is a plus
- Strong Web development & full stack experience
- Preference for simple, elegant solutions to complex problems.
- And a track record of getting things done
- Ability and interest in contributing to the entrepreneurial journey and development of the whole startup. No better way than to learn how to do it yourself now!

We are seeking independent self-starters, with experience problem solving and troubleshooting; highly adaptable and flexible who enjoy learning-by-doing, have experience identifying and acting on top priorities; are self-motivated and results-oriented.

About Porton:

PORTON is founded on the firm belief that everyone, irrespective of race or geographical boundaries deserves access to a timely and affordable medical opinion on critical health diagnoses or a treatment plan. In fulfilling this belief, we view ourselves as partners with patients, physicians, caregivers, our employees, our community, and our environment. We aim to become a regionally recognized brand, capitalizing on the ubiquitous nature of the Internet and associated technologies and the support of abounding talent. Our goal is moderate growth, annual profitability, and an enduring sense of humor.

Additional Information:

We provide a Virtual Medical Platform providing Services for Providers seeking to start or expand their Tele-health capabilities and Patients who have been diagnosed with a critical illness or want to validate a treatment plan.

These patients can access a certified medical specialist in a timely [real time - video and voice] and affordable way ensuring peace of mind and reduced risks such as, wrong diagnoses, infections because of hospitalization, unnecessary procedures, and travel. Our patients are in geographically challenged areas with limited access to specialist care. We also offer a culturally sensitive experience and in certain cases, language options.

Our Hiring Motto

We hire the right attitude, intensity, and passion; skills can be learned at any time.
